

Windber Municipal Authority Market in the Park

2023 Vendors - Fresh Fruit and Vegetable Agreement

This agreement is between those Vendors selling fresh fruits and vegetables at the Market, and the Windber Municipal Authority, for the duration of the 2023 season.

I, (the Vendor) understand that it is the mission of the Windber Municipal Authority Market in the Park (the Market) to support local farmers and growers and to provide them with a space to sell their products to the community. I understand that in order to successfully accomplish that mission, the Market must limit those products being offered for sale to only those that have been *locally grown*. I understand that if I intend to offer fruits or vegetables for sale at the Market that have not been grown by the me, members of my household, or my employees (“Resale Produce”), that I will be subject to additional requirements related to the sale of those items.

Therefore, in consideration of the opportunity to sell fresh fruits and vegetables at the Market, I agree to the following conditions:

1. All produce sold at the Market must be grown in Pennsylvania;
2. All Resale Produce sold at the Market must have been purchased from a primary PA grower;
3. Any Vendor offering Resale Produce for sale will pay an additional fee of \$20.00 per week;
4. Any Vendor selling Resale Produce must have a sign in their space that includes a list of all Resale Produce items, along with the name and location of the original grower or farmer;
5. The Market Manager may exercise his right to inspect the Vendor’s field and/or growing space or to ask for photographs of those spaces to confirm that the produce was locally grown; and
6. Subject to the discretion of the Market Manager, any Vendor who violates this agreement may be asked to remove their products from the Market and will be unable to return to the Market for the remainder of the season.
